

Portfolio Project

2021/2022

Throughout the year, we will be creating a portfolio documentation your child's learning and experiences. This portfolio will include photos of your child's learning as well as special classroom activities and reflections on their ongoing learning. We will purchase the necessary materials with this money. These portfolios will be available throughout the year for viewing and discussion. The portfolio will come home at the end of the year with your child.
